Letter from the General Manager

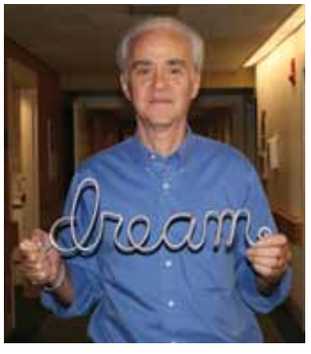
A new year and a new decade. This is a great time to speculate, dream and plan for great things to come. And so it is with KBTC. We are dreaming and planning for new, local programs that highlight our Western Washington lives and communities. We are continuing with our plans to complete the digital transition with an increase of broadcast power and a new digital translator (Channel 41) which serves the residents of Grays Harbor and Southwest Washington.

Near the top of our wish list is the opportunity to provide our high definition (HD) and international (MHz World View) programming to all of our viewers. We are working with the cable and satellite companies to achieve this goal, but the services they provide are their decision. Our viewers on Click! Network Cable TV receive both HD and MHz – and video-on-demand (VOD) is just around the corner. Verizon FIOS and DirecTV viewers should begin enjoying our HD programs within the next few months.

So here we go, a new decade of local public television. How are we doing? Send me a note or an email with your thoughts about KBTC. Thank you for watching and supporting your public television station.

NOVA: What are Dreams

Thursday, Feb. 4, 8 p.m.



What are dreams, and why do we have them? Are they a window into a hidden realm within us? Science is only just beginning to understand. **NOVA** joins the leading dream researchers and witnesses the extraordinary experiments they use to investigate the world of sleep. From human narcoleptics to sleepwalking cats, from recurrent nightmares to those who can't dream, each sequence contains a vital clue to the question these scientists are pursuing: Why do we dream?

Bloody Thursday

Tuesday, Feb. 23, 9 p.m

"They fought for the union – but gave all for each other." **BLOODY THURSDAY** tells the story of a pivotal moment in American labor history - the Pacific Waterfront Strike of 1934, in which longshoremen up and down the West Coast fought for their rights against the forces of shipping companies, politicians and police arrayed against them.

Masterpiece: Collision

Two parts, Mondays beginning Feb. 8, 8 p.m.

COLLISION tells the story of a major road accident and the 10 seemingly unconnected people involved. Beyond the chaotic landscape of corpses and crumpled cars, a series of invisible dramas unfolds — from government cover-ups to torn relationships and murder. Douglas Henshall ("Primeval"), Kate Ashfield (Shaun of the Dead) and Phil Davis ("Bleak House") star.

Frontline: A Death in Tehran

Thursday, Feb. 25, 9 p.m.

FRONTLINE investigates the life and death of Neda Soltani whose image remains a potent symbol for those who want to keep the reform movement in Iran alive. Pictured: New York--Iranians protest Ahmadinejad's UN visit on September 23, 2009, carrying an image of Neda Soltani, who was shot and killed on the streets of Tehran following Iranís controversial presidential election this summer.

Antiques Roadshow, Raleigh, NC

Tuesday, Feb. 16 & 23, 8 p.m.

ANTIQUES ROADSHOW's new season kicks off in Raleigh, North Carolina, amid a forest of giant "comic weathervanes," where appraiser Ken Farmer talks about smaller examples of vintage whirligigs. Highlights include a 1920 Arts & Crafts desk and lamp — both of which light up; a rare circa 1960 Gibson Double 12 Electric Guitar; and a set of four Chinese Quianlong period (1736-1795) carved jade objects whose auction estimate of $710,000 to $1,070,000 makes it the highest-value appraisal in **ROADSHOW** history.

Full Focus: Glimmering Gone

New episode Tuesday, Feb. 23, 7:30 p.m.

Explore the Hot Shop inside the Tacoma Museum of Glass as Beth Lipman and Ingalena Klenell collaborate to develop a new exhibition for the museum. The two artists will share their inspiration as they create pieces for the exhibition that will comprise three vignettes of glass: Memento, or objects of desire; Landscape, large-scale components that will create a veritable glass curtain; and Artifacts, an installation of sandblasted black and white glass components bathed in light.

"Even if I find a way to take it with me, I'll still leave something to KBTC!"

"While pondering my will and estate planning I couldn't pass up public television. In particular, KBTC with its excellent mix of entertainment for all ages.

From children's programming without commercials to history, science, music and more. I could not think of a better choice ."

"It's THAT important to me....."

Nature: Fellowship of the Whales

Wednesday, Feb. 3, 8 p.m

This is the story of the first year in a humpback whale's life. Follow the journey from her birthplace in the subtropical waters of Hawaii to summer feeding grounds in the cold seas off Alaska's southeast coast. The youngster will meet dangerous orcas and sharks and playful dolphins and seals. She will learn to use her flippers and tail to announce herself and to communicate with other whales. By the time mother and offspring return to Hawaii for the winter, the young humpback will be ready to set out on her own and find her own place in the community of whales.
